Encyclopedia of Language and Education: Research Methods in Language and Education

Encyclopedia of Language and Education: Research Methods in Language and Education

This volume seeks to enable language and education practitioners and researchers to get a sense of the range of issues being pursued in language and education research and the array of methods employed to do so. It focuses on language and education in relation to society, variation, culture, and interaction. Its unity of purpose and outlook with regard to the central role of language as both vehicle and mediator of educational processes and to the need for continued and deepening research into the limits and possibilities that implies is most impressive.
