Spanish Grammar in Context uses authentic text to illustrate and explain the key areas of Spanish grammar, and then offers a range of exercises for students to test their understanding and to produce effective language of their own.

Aimed at intermediate and advanced learners, and with a key to the exercises provided, the book is suitable for independent and tutor-led study.

Sourced from contemporary literature, newspaper and magazine articles from both Spain and Latin America, the texts are up-to-date and topical, and together with the exercises which have been expanded for the second edition, give students a comprehensive coverage of Spanish grammar.
