One Day on Mars (Tau Ceti Agenda #1)

Travis Taylor

One Day on Mars (Tau Ceti Agenda #1) Travis Taylor

1. This is the real thing—science fiction written by a real scientist who is also a gifted writer, following in the footsteps of Isaac Asimov, Arthur C. Clarke, Charles Sheffield, and other top-selling scientist-authors.
2. Like Travis's *Warp Speed*, this new novel has a rapid-fire story action and suspense. At the same time, cutting-edge science is deftly incorporated into the story, in the tradition of Larry Niven, Robert A. Heinlein, James P. Hogan, and other masters of real science fiction.
3. Featured book on Baen.com.
4. Award-winning cover art.

It's *24* on Mars: a nonstop futuristic thrill-ride, all in one day, through the critical events which were the breaking point for the underclass of Martian citizens and precipitated a revolution to break the Martian colonists free from the formidable Sol System government. The formerly red planet—now in danger of again becoming red, *blood* red—would never be the same, nor would the human race. It was one day that changed the course of history for the Solar System, raging from hand-to-hand combat to piloted armored mecha suits clashing to an enormous space battle, with dedicated heroes on both sides of the conflict wondering if they were doing the right thing—and if they would live to see another day. And wondering, as well, if the spark of this new war, that would eventually reach across whole star systems, would bring them peace *One Day on Mars*.

From reader reviews:

Gregory Holloman:

As people who live in the actual modest era should be revise about what going on or data even knowledge to make all of them keep up with the era which can be always change and progress. Some of you maybe will probably update themselves by studying books. It is a good choice for you personally but the problems coming to anyone is you don't know what one you should start with. This One Day on Mars (Tau Ceti Agenda #1) is our recommendation to make you keep up with the world. Why, because this book serves what you want and want in this era.

Ida Shrout:

Reading a e-book tends to be new life style in this era globalization. With looking at you can get a lot of information which will give you benefit in your life. Using book everyone in this world can share their idea. Books can also inspire a lot of people. Many author can inspire their reader with their story or even their experience. Not only the storyline that share in the books. But also they write about the data about something that you need case in point. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that exist now. The authors in this world always try to improve their proficiency in writing, they also doing some research before they write for their book. One of them is this One Day on Mars (Tau Ceti Agenda #1).

James McDonald:

Your reading sixth sense will not betray you actually, why because this One Day on Mars (Tau Ceti Agenda #1) e-book written by well-known writer who knows well how to make book which might be understand by anyone who else read the book. Written in good manner for you, dripping every ideas and creating skill only for eliminate your current hunger then you still hesitation One Day on Mars (Tau Ceti Agenda #1) as good book not simply by the cover but also with the content. This is one reserve that can break don't ascertain book by its cover, so do you still needing one more sixth sense to pick this kind of!? Oh come on your reading through sixth sense already told you so why you have to listening to another sixth sense.

Michael Hilton:

This One Day on Mars (Tau Ceti Agenda #1) is great reserve for you because the content which is full of information for you who have always deal with world and also have to make decision every minute. This particular book reveal it data accurately using great coordinate word or we can say no rambling sentences included. So if you are read this hurriedly you can have whole data in it. Doesn't mean it only will give you straight forward sentences but challenging core information with splendid delivering sentences. Having One Day on Mars (Tau Ceti Agenda #1) in your hand like having the world in your arm, facts in it is not ridiculous 1. We can say that no e-book that offer you world with ten or fifteen tiny right but this guide already do that. So , it is good reading book. Hey Mr. and Mrs. stressful do you still doubt that will?
