United Nations Educational, Scientific, and Cultural Organization (UNESCO): Creating Norms for a Complex World (Global Institutions) J.P. Singh

This book traces the history of UNESCO from its foundational idealism to its current stature as the preeminent international organization for science, education, and culture, building a well rounded understanding of this important organization.

The book:

- provides an overview of the organization and its institutional architecture in the context of its humanistic idealism
- details the subsequent challenges UNESCO faced through cold war and power politics, global dependence and interdependence, and the rise of identity and culture in global politics
- analyses the functioning of UNESCO administration, finance, and its various constituencies including the secretariat, member-states, and civil society
- explores the major controversies and issues underlying the initiatives in education, sciences, culture and communication
- examines the current agenda and future challenges through three major issues in UNESCO: Education for All, digital divide issues, and norms on cultural diversity
- assesses the role of UNESCO in making norms in complex world of multiple actors and intersecting issue-areas.

Reflecting on UNESCO's vision, its everyday practices, and future challenges; this work is an essential resource for students and scholars of international relations and international organizations.
