Louisa May Alcott is best known for penning *Little Women*, but few are aware of the experience that influenced her writing most-her time as a nurse during the Civil War. Caring for soldiers' wounds and writing letters home for them inspired a new realism in her work. When her own letters home were published as *Hospital Sketches*, she had her first success as a writer. The acclaim for her new writing style inspired her to use this approach in *Little Women*, which was one of the first novels to be set during the Civil War. It was the book that made her dreams come true, and a story she could never have written without the time she spent healing others in service of her country.
