In this text for practitioners, the author pulls together the key knowledge needed to successfully run a business under REACH, distilling thousands of pages of official documentation, and incorporating experiences from different-sized enterprises in a global context.

Starting with the basics of the REACH framework, she explains the entire process on how to register with the European ECHA office with a particular emphasis on small and medium-sized businesses. Along the way, she describes key milestones and presents sample documents from real case studies. The final part of the book addresses strategies to ensure a reach-compliant operation, including recommendations for in-house processes as well as communicating with suppliers and downstream users.

As a result, managers in the pharmaceuticals and chemicals industries will learn how to operate their companies in full compliance with REACH standards.
