## **Eliot Porter: In the Realm of Nature** Paul Martineau

Known for his exquisite images of birds and landscape, Eliot Porter (American, 1901–1990) was a pioneer in the use of color photography. His work also became a powerful visual argument for environmental conservation. Trained as a medical doctor and possessing a scientist's gift for close observation, Porter explored new ways of depicting nature, building blinds in trees so he could study his avian subjects at closer vantage, and producing landscape images that capture both pristine forest and ragged river canyons with equal force and brilliance.

Initially encouraged by the groundbreaking photographers Ansel Adams and Alfred Stieglitz, Porter went on to produce a body of work all his own. His 1962 Sierra Club book *In Wildness Is the Preservation of the World*, with its images grouped by season and accompanied by quotations from Henry David Thoreau, transformed the concept of nature photography books. Ultimately, Porter's photographs came to the attention of Congress and led to the passage of the Wilderness Act of 1964, the foundational law in wilderness management today.

*Eliot Porter: In the Realm of Nature* contains 110 images from the collections of Daniel Greenberg and Susan Steinhauser; the Amon Carter Museum, Fort Worth, Texas; and of the J. Paul Getty Museum, along with an essay by Paul Martineau that discusses Porter's life and the innovations he brought to the practice of photography.

#### Albert Gilchrist:

Is it anyone who having spare time after that spend it whole day by simply watching television programs or just lying down on the bed? Do you need something totally new? This Eliot Porter: In the Realm of Nature can be the solution, oh how comes? A book you know. You are thus out of date, spending your extra time by reading in this new era is common not a geek activity. So what these guides have than the others?

#### Terry Crabtree:

As a university student exactly feel bored in order to reading. If their teacher inquired them to go to the library as well as to make summary for some book, they are complained. Just very little students that has reading's soul or real their pastime. They just do what the instructor want, like asked to the library. They go to generally there but nothing reading very seriously. Any students feel that looking at is not important, boring and also can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. So , this Eliot Porter: In the Realm of Nature can make you sense more interested to read.
