The Links Robert Hunter

Students of golf course architecture are well aware of Robert Hunter — and it's all because of *The Links*. This scholarly work was different from other architecture books of the day because Hunter was not a designer attempting to attract commissions through his writing. His goal — through the use of detailed drawings, contemporary photographs and thoughtful text — was not only to explain what made the classic holes so great but why they would stand the test of time.

This exact reprint of *The Links* belongs in the libraries of all aficionados of golf course architecture.
