The Culture Clash: A Revolutionary New Way to Understanding the Relationship Between Humans and Domestic Dogs Jean Donaldson

The Culture Clash is special. Written in Jean's inimitably informal yet precise lecture style, the book races along on par with a good thriller. The Culture Clash depicts dogs as they really are - stripped of their Hollywood fluff, with their lovable 'can I eat it, chew it, urinate on it, what's in it for me' philosophy. Jean's tremendous affection for dogs shines through at all times, as does her keen insight into the dog's mind.

Relentlessly, she champions the dog's point of view, always showing concern for their education and well being. Without a doubt, Jean's book is the hottest doggy item on the market.

Generations of dogs have been labeled training-lemons for requiring actual motivation when all along they were perfectly normal. Numerous other completely and utterly normal dogs have been branded as canine misfits simply because they grew up to act like dogs. Barking, chewing, sniffing, licking, jumping up and occasionally, (just like people), having arguments, is as normal and natural for dogs as wagging tails and burying bones. However, all dogs need to be taught how to modify their normal and natural behaviors to adjust to human culture. Sadly, all too often, when the dog's way of life conflicts with human rules and standards, many dogs are discarded and summarily put to death.

That's quite the Culture Clash.
