Recent years have seen a dramatic upsurge of interest in the connections between sexualities, space and place. Drawing established and 'founding' figures of the field together with emerging authors, this innovative volume offers a broad, interdisciplinary and international overview of the geographies of sexualities. Incorporating a discussion of queer geographies, *Geographies of Sexualities* engages with cutting edge agendas and challenges the orthodoxies within geography regarding spatialities and sexualities. It contains original and previously unpublished material that spans the often separated areas of theory, practices and politics. This innovative volume offers a trans-disciplinary engagement with the spatialities of sexualities, intersecting discussions of sexualities with issues such as development, race, gender and other forms of social difference.
