## **Información: La clave para entender la Complejidad (Spanish Edition)** Santiago Roel R

En el afán de explicar el éxito del modelo de prevención social de la violencia y la delincuencia - Semáforo Delictivo- desde un punto de vista teórico, el autor utiliza conceptos de la Teoría del Caos y la Teoría de los Sistemas Complejos. Publica un ensayo previo titulado ¿Cómo emerge el Orden en los Sistemas Sociales? En ese primer ensayo el autor propone dos conceptos nuevos a la teoría: La intención y la información como elementos claves para la emergencia del orden. Ahora, en este libro el autor explora el tema de la información desde todos los ángulos de la ciencia moderna pero va más allá, pues encuentra elementos que no se mencionan en la teoría y que son útiles no sólo a los sistemas sociales sino para el resto de las disciplinas. Lo hace desde una perspectiva fresca y desligada de los paradigmas actuales. ¿Qué es la información? ¿Cómo interactúa con la energía y la materia? ¿Es este un Universo que procesa la información? ¿Qué son los campos informáticos? ¿Qué implicaciones tienen? ¿Es éste un Universo consciente? ¿Por qué la ciencia no ha podido desligarse del paradigma mecanicista? Estos son algunos de los cuestionamientos que el autor se hace y nos invita a explorar.
