There is something about the way their minds work that captivates our own minds, and causes us to want to know more about them. Why do they do the things that they do? What causes them to turn into the serial killers that we come to fear? Why do they choose to prey upon society as they do, and what causes them to choose the victims that they choose? There is so much to study and so much to learn when it comes to these grotesque figures and the murders they committed. From the internal workings of their minds to what set them off, it is hard to limit the study of serial killers to just one topic. In this book, we are going to study the worst of the worst. Ranging from the real killings of Edmund Kemper and Ted Bundy to the fictional but just as disturbing acts of Hannibal Lector, this book is going to give you a glimpse into the mind of serial killers as a whole.

- Study the killings of 12 major serial killers in history
- Learn why serial killers do what they do
- Discover the common thread that ties all serial killers together
- Catch a glimpse of the struggle authorities battled trying to catch them
