Now, after five years, Oracle has come out with the newest release of their ERP system, version 11i. Oracle E-Business Suite 11i: Implementing Core Financial Applications will walk the reader through the process of the Oracle 11i upgrade/conversion and provide a tutorial path for navigating through financials. Its step-by-step guidance shortens the implementation process by providing the menu paths of the actual package and in-depth descriptions of how to use the screens as well as explanations of such user-friendly aspects as customizing the program for individual use. Whether your company has been a dedicated Oracle customer or is considering adopting the powerful capabilities of this latest version, Oracle E-Business Suite 11i: Implementing Core Financial Applications will help you quickly master the program and turn it into one of your business's most powerful back-office tools.
