Advances in Digital Forensics VII: 7th IFIP WG 11.9 International Conference on Digital Forensics, Orlando, FL, USA, January 31 - February 2, 2011, ... in Information and Communication Technology)

Digital forensics deals with the acquisition, preservation, examination, analysis and presentation of electronic evidence. Networked computing, wireless communications and portable electronic devices have expanded the role of digital forensics beyond traditional computer crime investigations. Practically every crime now involves some aspect of digital evidence; digital forensics provides the techniques and tools to articulate this evidence. Digital forensics also has myriad intelligence applications. Furthermore, it has a vital role in information assurance -- investigations of security breaches yield valuable information that can be used to design more secure systems. Advances in Digital Forensics VII describes original research results and innovative applications in the discipline of digital forensics. In addition, it highlights some of the major technical and legal issues related to digital evidence and electronic crime investigations. The areas of coverage include: Themes and Issues, Forensic Techniques, Fraud and Malware Investigations, Network Forensics, and Advanced Forensic Techniques. This book is the 7th volume in the annual series produced by the International Federation for Information Processing (IFIP) Working Group 11.9 on Digital Forensics, an international community of scientists, engineers and practitioners dedicated to advancing the state of the art of research and practice in digital forensics. The book contains a selection of 21 edited papers from the 7th Annual IFIP WG 11.9 International Conference on Digital Forensics, held at the National Center for Forensic Science, Orlando, Florida, USA in the spring of 2011. Advances in Digital Forensics VII is an important resource for researchers, faculty members and graduate students, as well as for practitioners and individuals engaged in research and development efforts for the law enforcement and intelligence communities. Gilbert Peterson is an Associate Professor of Computer Engineering at the Air Force Institute of Technology, Wright-Patterson Air Force Base, Ohio, USA. Sujeet Shenoj is the F.P. Walter Professor of Computer Science at the University of Tulsa, Tulsa, Oklahoma, USA.

From reader reviews:

Lacey Clements:

Have you spare time to get a day? What do you do when you have a lot more or little spare time? Yep, you can choose the suitable activity to get spend your time. Any person spent their very own spare time to take a go walking, shopping, or went to the actual Mall. How about open or maybe read a book titled Advances in Digital Forensics VII: 7th IFIP WG 11.9 International Conference on Digital Forensics, Orlando, FL, USA, January 31 - February 2, 2011, ... in Information and Communication Technology)? Maybe it is to get best activity for you. You understand beside you can spend your time with your favorite's book, you can smarter than before. Do you agree with their opinion or you have different opinion?

Abram Huffman:

Book is actually written, printed, or descriptive for everything. You can know everything you want by a e-book. Book has a different type. As we know that book is important point to bring us around the world. Close to that you can your reading talent was fluently. A publication Advances in Digital Forensics VII: 7th IFIP WG 11.9 International Conference on Digital Forensics, Orlando, FL, USA, January 31 - February 2, 2011, ... in Information and Communication Technology) will make you to possibly be smarter. You can feel far more confidence if you can know about everything. But some of you think that will open or reading the book make you bored. It is not make you fun. Why they might be thought like that? Have you searching for best book or appropriate book with you?

Adeline Norris:

Now a day those who Living in the era everywhere everything reachable by connect to the internet and the resources inside can be true or not require people to be aware of each facts they get. How people have to be smart in having any information nowadays? Of course the reply is reading a book. Reading a book can help people out of this uncertainty Information mainly this Advances in Digital Forensics VII: 7th IFIP WG 11.9 International Conference on Digital Forensics, Orlando, FL, USA, January 31 - February 2, 2011, ... in Information and Communication Technology) book as this book offers you rich information and knowledge. Of course the info in this book hundred per-cent guarantees there is no doubt in it you may already know.

Matthew Seifert:

Beside this specific Advances in Digital Forensics VII: 7th IFIP WG 11.9 International Conference on Digital Forensics, Orlando, FL, USA, January 31 - February 2, 2011, ... in Information and Communication Technology) in your phone, it might give you a way to get nearer to the new knowledge or information. The information and the knowledge you are going to got here is fresh from oven so don't end up being worry if you feel like an outdated people live in narrow village. It is good thing to have Advances in Digital Forensics VII: 7th IFIP WG 11.9 International Conference on Digital Forensics, Orlando, FL, USA, January 31 -

February 2, 2011, ... in Information and Communication Technology) because this book offers for your requirements readable information. Do you often have book but you do not get what it's exactly about. Oh come on, that wil happen if you have this with your hand. The Enjoyable agreement here cannot be questionable, similar to treasuring beautiful island. Use you still want to miss the idea? Find this book as well as read it from currently!
